Concurrent Program Options
Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Accelerated Program Options**

This program allows students to choose a 3-year path while participating in the same high-quality educational experience of a 4-year option. Students can opt to fast-track their studies after acceptance into a participating program by connecting with their academic advisor. Fast track options appear at the top of the major map.

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Taxation and Data Analytics, MTax

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Global Opportunities

Global Experience

Study abroad experiences open up new doors for accountancy majors. Students gain valuable skills employers want, such as communication, interpersonal skills and flexibility, and understanding international accounting methods helps students become more well-rounded and competitive in the accounting field. Students benefit from thinking about study abroad early, allowing for opportunities to take summer courses in places like Costa Rica or studying a full semester in Europe to gain a real-life perspective on business applications worldwide.

The W. P. Carey School of Business recommends the following study abroad programs for students majoring in accountancy: https://goglobal.asu.edu/students/major/wp-carey/accountancy.
