Nutrition (Human Nutrition), BS

ECNTRHBS

ASU is no longer accepting new students to this program. Please explore Degree Search for other similar program options.

Program Description

The BS program in nutrition with a concentration in human nutrition provides students with a strong foundation in nutrition and science that prepares them for careers in public or community health programs and clinical or graduate research programs.

In addition to providing a strong foundation in medical nutrition therapy, the coursework includes anatomy, physiology, chemistry and microbiology. Students gain knowledge of nutritional concepts that health care professionals sometimes lack.

Students from this program have gone on to study:

- dentistry
- medicine
- naturopathic medicine
- optometry and podiatry
- osteopathic medicine
- pharmacy

At a Glance

- College/School: College of Health Solutions
- Location: Downtown Phoenix

- Additional Program Fee: Yes
- Second Language Requirement: No
• **First Required Math Course:** MAT 170 - Precalculus
• **Math Intensity:** Moderate

2019 - 2020 Major Map  
Major Map (Archives)

**Concurrent Program Options**

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

**Admission Requirements**

**General University Admission Requirements:**
All students are required to meet general university admission requirements.

First-year | Transfer | International | Readmission

**Change of Major Requirements**

Students should refer to https://changemajor.apps.asu.edu for information about how to change a major to this program.

**Transfer Options**

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU™ to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey. Students may learn more about these programs by visiting the admission site: https://admission.asu.edu/transfer/MyPath2ASU.

**Global Opportunities**

**Global Experience**

In the field of nutrition, studying abroad can expose students to unique health environments and expand students' knowledge of culturally specific health approaches. Students gain a deeper understanding of how food and culture intertwine and how to communicate nutritional and sanitary standards to a diverse audience.
Students enhance their resumes with the heightened communication, cultural competency and critical thinking skills they acquired through study abroad. [https://goglobal.asu.edu/](https://goglobal.asu.edu/)

The College of Health Solutions recommends the following study abroad programs for students majoring in nutrition: [https://goglobal.asu.edu/students/major/chs/nutrition](https://goglobal.asu.edu/students/major/chs/nutrition).

**Career Opportunities**

The nutrition field provides employment opportunities in:

- education
- food and nutrition marketing and sales
- food service
- health care
- nutrition and health promotion and consulting
- public health

Graduates of the human nutrition program often go on to apply to medical school or another health profession. The area of nutrition research is also a good fit for human nutrition majors.

Advanced degrees or certifications may be required for academic or clinical positions.
