

Arts (BA in the Arts), BA

FAATSBA

Are you interested in the cultural industries? Are you driven and passionate? Do you want to explore the breadth of art and design practices? Then this unique transdisciplinary program might be right for you.

Program description

The BA in the arts is an interdisciplinary degree program designed for students who are passionate about the arts and design and interested in exploring multiple arts disciplines rather than specializing in one.

Students gain an increased understanding of the theoretical, historical and cultural forces that shape the cultural expression of arts and design. Students pursue open-ended paths to explore and develop a range of skills suitable for advanced study in multiple areas.

The major includes a common core for all students, and students may choose a focus from arts administration or entertainment design or they may design an individualized focus that is subject to approval by the institute's standards committee and the dean's office.
