Program Description

The BA program in political science offers a variety of courses and opportunities to study politics and policies at the local, national and global levels. The program aims to provide students with the tools and skills they need to link theory with real-world problems and issues.

Study how citizens interact with their governments and how governments at all levels formulate policies to serve or not serve their citizens. From U.S. elections and lobbying to international issues of terrorism, diplomacy and empowerment, students can learn about politics and explore innovative approaches to today’s emerging challenges.

With coursework in several areas of political science and broad exposure to ASU’s liberal arts offerings, the Bachelor of Arts degree in political science produces well-rounded learners with strong research and writing skills.
