

Organizational Leadership, AA

LSORGLAA

Whether you intend to be a military leader or prepare for your transition to civilian life, make the most of your associate degree coursework in this partnership program with the U.S. Naval Community College.

Program description

This AA program is designed to provide leadership training to active duty Navy, Marine Corps and Coast Guard enlisted personnel. This program uses transdisciplinary methods to prepare students to build a leadership foundation. Students learn skills applicable to any work environment, regardless of assigned role, in organizations across all sectors: private, nonprofit, government and military. Students develop the skills leaders need to solve problems, communicate effectively, assess programs, manage resources and evaluate emerging technologies.

Students who complete the program can continue in an established transfer path to the BA program in organizational leadership and other ASU degree programs. The flexible Associate of Arts degree allows students to complete general education coursework and concentrated coursework in a second disciplinary field to prepare for leadership in a specific industry or sector.
