

# International Public Health, BIPH

NHIPHBIPH

Do you want to create solutions to global challenges and generate social impact in health and health care? Develop the innovative mindset you will need for tackling the complex public health issues affecting local and global populations.

## Program description

The BIPH program builds and strengthens the international public health workforce using coursework from two leading universities: Arizona State University and the University of New South Wales in Sydney, Australia.

Aligned with U.S. accreditation standards in public health, the Bachelor of International Public Health program teaches new approaches to:

- communicable disease prevention
- environmental health
- global health management
- health promotion
- public health issues
- public health surveillance

Students develop a holistic, equitable, ethical and sustainable approach to public health practice, collaborating with diverse stakeholders to develop and implement strategies to ensure health for all.

In their final year, students complete a research-based capstone experience in their area of interest, which prepares them for their career of choice. Students use this opportunity to develop and implement public health research and interventions with community-based organizations throughout the world.

## Concurrent program options

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

## Admission requirements

### General university admission requirements:

All students are required to meet general university admission requirements.

[First-year](#) | [Transfer](#) | [International](#) | [Readmission](#)

## Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about [ASU tuition and financial aid](#) options to find out which will work best for them.

## Change of Major Requirements

A current ASU student has no additional requirements for changing majors.

Students should visit the [Change of Major form](#) for information about how to change a major to this program.

## Attend online

### ASU Online

ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may [view the program's ASU Online page](#) for program descriptions and to request more information.

## ASU Local

It is now possible to earn an ASU degree with [ASU Local](#), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

## Transfer options

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use [MyPath2ASU®](#) to outline a list of recommended courses to take prior to transfer.

ASU has [transfer partnerships](#) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

## Global opportunities

### PLuS Alliance

The PLuS Alliance partnership combines the strengths of three leading research universities from three continents to create and share knowledge that will solve pressing educational and societal challenges.

Students have the opportunity to engage with peers and specialists across the globe through PLuS-partner courses offered online. Through this PLuS Alliance collaborative degree program, students develop transferable global competencies and gain exposure to international teaching and academic content.

<https://www.plusalliance.org/>

### Global experience

International public health students have the opportunity to gain exposure to culturally specific health approaches and community-based opportunities and to learn about unique health environments and differences in the human condition worldwide through study abroad.

With more than 300 options available, whether in a foreign country, in the U.S. or online, [Global Education programs](#) allow students to tailor their experience to their unique interests and skill sets.

## Career opportunities

The most recent report of the United Nations High-Level Commission on Health Employment and Economic Growth described the importance of a global workforce that will support the creation of 40 million new jobs by 2030, particularly in low- and middle-income countries. Critical needs include global health policy, data and informatics, quality and process improvement, ethics, economics and community-based care.

Potential career titles include:

- education coordinator
- health coach
- program coordinator
- program manager
- program officer
- project analyst
- public health scientist
- research associate

Commonly cited hiring organizations include the Peace Corps, the United States Agency for International Development, the Centers for Disease Control and Prevention, the United Nations Children's Fund, other nongovernmental organizations, and state and federal agencies.

Example job titles and salaries listed below are not necessarily entry level, and students should take into consideration how years of experience and geographical location may affect pay scales. Some jobs also may require advanced degrees, certifications or state-specific licensure.

Career	*Growth	*Median salary
<b><u>Biostatistician</u></b> ☀	31.6%	\$98,920
<b><u>Community Health Worker</u></b> ☀	14.1%	\$46,190
<b><u>Environmental Protection Specialist</u></b> ☀	6.1%	\$76,480
<b><u>Environmental Specialist</u></b> ☀	5.8%	\$48,380
<b><u>Epidemiologist</u></b> ☀	26.7%	\$78,520
<b><u>Health and Safety Manager</u></b> ☀	13.3%	\$78,570
<b><u>Medical and Health Services Manager</u></b> ☀	28.4%	\$104,830
