

Educational Studies (Early Childhood Studies), BAE

TEESECEBAE

Learn how to positively influence young children's lives. You'll develop a range of skills that are in high demand from many kinds of employers that run care and educational services for very young children.

Program description

The BAE program in educational studies with a concentration in early childhood studies prepares students for careers working with and advocating for children from birth to age 5 (not yet in kindergarten).

Students gain skills in communication, critical thinking and leadership so they can positively affect school readiness for young children. Through online coursework, students deepen their understanding of the social, emotional, cognitive and physical development of young children. They learn to set developmentally appropriate learning goals for this age group, and create and support effective instructional strategies and develop highly individualized instruction.

This program integrates experiential learning opportunities into the curriculum, allowing students to put coursework into practice. Students must be able to work or volunteer with learners in an early childhood setting (birth to age 5, not yet in kindergarten) for at least 15 hours per month throughout their junior and senior years.

Transfer students who already have an AAS degree in early childhood education or a closely related field should consider the BAS in applied science (early childhood studies) program, which has a parallel curriculum.

This program does not lead to teacher certification. Students seeking teacher certification should enroll in one of the other Mary Lou Fulton Teachers College undergraduate programs.

Concurrent program options

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated program options

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an **accelerated bachelor's plus master's degree** with:

[Elementary Education \(Teacher Certification\), MEd](#)

[Elementary Education, MEd](#)

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and [how to apply](#).

Admission requirements

General university admission requirements:

All students are required to meet general university admission requirements.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about [ASU tuition and financial aid](#) options to find out which will work best for them.

Change of Major Requirements

A current ASU student has no additional requirements for changing majors.

Students should visit the [Change of Major form](#) for information about how to change a major to this program.

Attend online

ASU Online

ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may [view the program's ASU Online page](#) for program descriptions and to request more information.

ASU Local

It is now possible to earn an ASU degree with [ASU Local](#), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer options

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use [MyPath2ASU®](#) to outline a list of recommended courses to take prior to transfer.

ASU has [transfer partnerships](#) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global opportunities

Global experience

Because of climate change, geopolitical instability or economic factors, the United Nations and other institutions predict that migration is expected to increase globally for the foreseeable future. Learners will be migrating to new communities. Increasingly, educators will be asked to meet the needs of students who speak languages other than English and bring a range of cultures into classrooms and learning environments. Education students who participate in study abroad programs can prepare for this reality by engaging in [Global Education programs](#), where they can expand their notion of "normal" schooling and deepen their understanding of how to foster inclusive and inspiring learning environments.

Career opportunities

This program is a great option for students who are already working in the field of early childhood education.

Career opportunities for graduates include early childhood educators in various settings, such as Head Start programs, early care and education centers, private preschools, nonprofit centers and home-based service providers. Other career opportunities include center-based administrators or directors; topic specialists that provide resources, training and technical assistance to early childhood professionals and programs; program managers; family support specialists and consultants.

Example job titles and salaries listed below are not necessarily entry level, and students should take into consideration how years of experience and geographical location may affect pay scales. Some jobs also may require advanced degrees, certifications or state-specific licensure.

Career	*Growth	*Median salary
<u>Education Professor</u>	3.7%	\$66,930
<u>Kindergarten Teacher</u>	0.5%	\$60,490
<u>Preschool Teacher</u>	3.4%	\$35,330

* Data obtained from the Occupational Information Network (O*NET) under sponsorship of the U.S. Department of Labor/Employment and Training Administration (USDOL/ETA).
