Educational Studies (Early Childhood Studies), BAE

Learn how to positively influence young children's lives. You'll develop a range of skills that are in high demand from many kinds of employers that run educational services for children for very young children.

Program Description

The BAE program in educational studies with a concentration in early childhood studies prepares students for careers working with and advocating for children from birth to age 5.

Students gain skills in communication, critical thinking and leadership so they can positively affect school readiness for young children. Through online coursework, students deepen their understanding of the social, emotional, cognitive and physical development of young children. They learn to set developmentally appropriate learning goals for this age group and create and support effective instructional strategies and develop highly individualized instruction.

This program integrates experiential learning opportunities into the curriculum, allowing students to put coursework into practice. Students must be able to work or volunteer with learners in an early childhood setting for at least 15 hours per month throughout their junior and senior year.

Transfer students who already have an AAS degree in early childhood education or a closely related field should consider the BAS in applied science (early childhood studies) program, which has a parallel curriculum.

This program does not lead to teacher certification. Students seeking teacher certification should enroll in one of the other Mary Lou Fulton Teachers College undergraduate programs.

At a Glance
• College/School: Mary Lou Fulton Teachers College
• Location: Online, ASU Local

• Additional Program Fee: No
• Second Language Requirement: No
• First Required Math Course: MAT 142 - College Mathematics
• Math Intensity: General

Concurrent Program Options

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission Requirements

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman | Transfer | International | Readmission

Change of Major Requirements

A current ASU student has no additional requirements for changing majors.

Students should refer to https://changemajor.apps.asu.edu for information about how to change a major to this program.

Attend Online

ASU Online

ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here.

ASU Local
It is now possible to earn an ASU degree with ASU Local, an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support. Those interested may learn more about ASU Local [here](here).

### Transfer Options

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use [MyPath2ASU™](MyPath2ASU™) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey. Students may learn more about these programs by visiting the admission site: [https://admission.asu.edu/transfer/MyPath2ASU](https://admission.asu.edu/transfer/MyPath2ASU).

### Global Opportunities

**Global Experience**

Future educators must learn to create inclusive and inspiring learning environments, and they can do this by expanding their horizons through study abroad. They can explore how schooling works in countries that are leaders in education, conduct comparative research, and make a difference in a community by volunteering at schools and engaging in local educational programs through service-learning opportunities. Students may visit [https://goglobal.asu.edu/](https://goglobal.asu.edu/) to explore programs.

### Career Opportunities

This program is a great option for students who are already working in the field of early childhood education.

Career opportunities for graduates include early childhood educators in various settings, such as Head Start programs, child care centers, private preschools, nonprofit centers and home-based service providers. Other career opportunities include center-based administrators or directors; topic specialists that provide resources, training and technical assistance to teachers and programs; program managers; family specialists; and consultants.

Career examples include but are not limited to those shown in the following list. Advanced degrees or certifications may be required for academic or clinical positions.
