Supply Chain Management, MS

Delivered by world-renowned supply chain faculty members in one of the best business schools in the U.S., the supply chain master's degree from ASU can be completed on campus or 100% online. Earn your degree --- and propel your career --- in as few as nine months.

Program Description

Degree Awarded: MS Supply Chain Management
Students discover the technical elements of supply chain and learn how to manage the flow of products and the processes that generate them.

The MS program in supply chain management provides students an understanding of the role the supply chain manager can play in an enterprise supply chain and in the overall strategy. The program exposes them to leading supply chain management operating practices, analysis methods, technology applications and strategy development.
