

# Addiction Psychology, MS

LAADPSYMS

## Program description

### Degree awarded: MS Addiction Psychology

The MS program in addiction psychology pairs state-of-the-art research from internationally recognized experts in addictions with clinical expertise from licensed psychologists and licensed addiction counselors who have decades of experience providing addiction treatment.

This program provides the knowledge, skills and experience necessary for graduates to pursue state licensure for becoming an addiction counselor.

## Degree requirements

45 credit hours including the required applied project course (PSY 593)

### Required Core (27 credit hours)

PSY 570 Psychopharmacology (3)

PSY 601 Addiction and Substance Abuse: Assessment and Diagnosis (3)

PSY 602 Comorbidity in Substance Use Related Problems (3)

PSY 603 Evidence-based Interventions for Substance Use Related Problems (3)

PSY 604 Multicultural Issues Related to Substance Use Related Problems (3)

PSY 605 Group Therapy for Substance Use-Related Problems (3)

PSY 606 Case Management for Substance Use Related Problems (3)

PSY 607 Family and Adolescent Treatment for Substance Use Related Problems (3)

PSY 608 Supervision of Addictions Counselors (3)

**Research (3 credit hours)**

PSY 600 Research Methods (3)

**Other Requirements (9 credit hours)**

PSY 591 Seminar: Ethics (3)

PSY 680 Practicum (6)

**Culminating Experience (6 credit hours)**

PSY 593 Applied Project (6)

**Additional Curriculum Information**

Students complete six credit hours of practicum, which consists of 600 hours of applied work as an addiction counselor under supervision of licensed substance abuse counselors. With support from program advisors, students arrange for a supervision experience at a licensed addiction treatment center where they are located that provides supervision as part of the training experience. Program staff verify the licensure status of the agency and supervisor, and maintain a practicum training agreement. The practicum course also includes a weekly didactic class that facilitates the training process and monitors for any problems and successful completion of the practicum experience.

The culminating experience is a six credit hour applied project. For the applied project, students evaluate existing research on addiction treatment, identify gaps in the literature, and generate a study or recommendations that contribute to the field of addiction psychology. The applied project course also includes completion of a practice licensing exam that helps prepare students to obtain state licensure as an addiction counselor.

Courses listed for other requirements may be substituted with approval of the academic unit.

## **Admission requirements**

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in health, behavioral health, psychology, counseling or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

1. graduate admission application and application fee
2. official transcripts

3. professional resume
4. two letters of recommendation
5. written statement
6. proof of English proficiency

### **Additional Application Information**

An applicant whose native language is not English must provide [proof of English proficiency](#) regardless of their current residency.

## **Tuition information**

When it comes to paying for higher education, everyone's situation is different. Students can learn about [ASU tuition and financial aid](#) options to find out which will work best for them.

## **Attend online**

### **ASU Online**

ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may [view the program's ASU Online page](#) for program descriptions and to request more information.

## **Career opportunities**

Substance abuse counselor jobs can be incredibly rewarding and offer a wide variety of experiences. Graduates can find employment in substance abuse treatment centers; community mental health agencies; the primary care, integrated health and criminal justice fields; hospitals; schools and universities; and military and veterans affairs offices and hospitals.

## **Professional licensure**

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the [ASU professional licensure](#) webpage.

Completion of the Master of Science program in addiction psychology does not result in licensure as an addictions counselor. Pursuit of state licensure is a part of career development and occurs subsequent to completion of a terminal degree.

State governments administer licensing and have several requirements, including educational and training requirements, which this program meets; supervised work experience as a part of employment after

completion of the degree; and passing a licensing exam that is administered through the state licensing entity. This program prepares students for this licensing exam, but the exam is taken after completion of the degree.
