Communication Disorders, MS

You can make a difference in the lives of children and adults with autism, brain injuries, and difficulties swallowing and communicating.

Program Description

Degree Awarded: MS Communication Disorders
The MS program in communication disorders prepares students to become certified speech-language pathologists. This is a full-time residential program that can be completed in 20 months.

In the first year of the program, students take a series of courses to develop knowledge of and skills in assessment and intervention approaches for communication disorders across the life span. They also gain hands-on experience providing services to real-world clients in on-campus clinics, guided by clinical faculty educators. In the second year, students take elective courses to further develop their knowledge in selected topic areas and to acquire additional clinical skills in supervised external placements in the community.

This program offers research and clinical opportunities in many diverse settings, including inpatient and outpatient medical sites, public schools, early intervention programs and private practice clinics. A part-time employment program is available for speech-language pathology assistants in public schools. Those seeking specialized training can pursue a certificate in multilingual and multicultural services.

The program is accredited by the Council on Academic Accreditation of the American Speech-Language-Hearing Association.

At a Glance

- College/School: College of Health Solutions
- Location: Tempe
Degree Requirements

60 credit hours and a thesis, or
60 credit hours and a written comprehensive exam

Required Core (34 credit hours)
SHS 538 Clinical Methods and Simulation in Speech-Language Pathology (4)
SHS 539 Professional Issues in Speech-Language Pathology (2)
SHS 567 Neural Bases of Communication Disorders (2)
SHS 570 Communication Disorders and Multicultural Populations (2) or SHS 597 Bilingual Speech-Language Pathology (2)
SHS 571 Augmentative Communication and Language Programming (2)
SHS 572 Language Assessment and Intervention in Infants and Toddlers (2)
SHS 573 Language Assessment and Intervention with School-Age Populations (2)
SHS 574 Management of Feeding and Swallowing Disorders (2)
SHS 575 Aphasia and Related Neurogenic Language Disorders (2)
SHS 577 Current Assessment, Intervention and Research in Autism (2)
SHS 578 Fluency Disorders (2)
SHS 579 Voice and Resonance Disorders (2)
SHS 581 Traumatic Brain Injury and Cognitive Linguistic Disorders (2)
SHS 582 Differential Diagnosis of Communication Disorders (2)
SHS 585 Articulation and Phonology: Assessment and Intervention (2)
SHS 587 Language Assessment and Intervention with Preschool Populations (2)

Electives (0 or 6 credit hours)

Other Requirements (20 credit hours)
SHS 500 Research Methods (1)
SHS 580 Clinical Practicum (9)
SHS 584 Clinical Internship (10)
American Speech-Language-Hearing Association Praxis national exam in speech language pathology (0)

Culminating Experience (0 or 6 credit hours)
written comprehensive exam (0) or
SHS 599 Thesis (6)

Additional Curricular Information
Students who choose the written comprehensive examination as their culminating experience must take six credit hours of electives. Students should see their academic unit for an approved list of elective courses.

All students must take the American Speech-Language Hearing Association Praxis national exam and have their scores reported to the program.
Admission Requirements

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's degree in speech and hearing science or a related field from a regionally accredited institution and completed prerequisite coursework in speech and hearing.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program.

All applicants must submit:

1. graduate admission application and application fee
2. official transcripts
3. professional resume/CV
4. personal statement not to exceed 300 words
5. email addresses of three recommenders
6. proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

At least two of the three recommenders must be speech and hearing faculty. The third recommender may be professional.

Applicants who have earned a bachelor's degree in related fields will be considered; however, these applicants will be required to complete prerequisite coursework prior to admission. Courses include:

- introduction to phonetics (SHS 250)
- anatomical/physiological bases of speech (SHS 310)
- hearing science (SHS 311)
- language science (SHS 367)
- speech science (SHS 375)
- introduction to audiology (SHS 401)
- clinical methods and treatment of communication disorders (SHS 402)
- speech and language acquisition (SHS 465 or 565)
- aural rehabilitation (SHS 496 or 596) strongly recommended

An interview may be required in person or via teleconference.

Tuition Information
When it comes to paying for college, everyone’s situation is different. Students can learn about ASU tuition and financial aid options to find out which will work best for them.

**Program Learning Outcomes**

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Generate recommendations for clients by synthesizing in-depth knowledge of communication and swallowing processes including etiologies, characteristics, anatomical physiological, acoustic, psychological, developmental, linguistic, and cultural correlates.
- Formulate prevention, assessment and treatment options for clients with communication and swallowing disorders.
- Demonstrate skill based competency in the evaluation and treatment of people across the life span with communication, speech, language, literacy, cognition and swallowing difficulties.
- Function in their role as a speech-language pathologist including active utilization of interprofessional collaboration, interpersonal skills, counseling skills, supervision, advocacy for individuals who need services as well as the ability to act in accordance with the ethical, legal and philosophical principles of the speech-language pathology profession and the American Speech-Language-Hearing Association.
- Evaluate evidence based resources using scientific foundation principles to justify an approach to service provision as a speech-language pathologist.

**Career Opportunities**

Speech-language pathologists evaluate speech, cognitive, hearing and language test results, swallow results, or medical or background information to diagnose and plan treatment for speech, language, fluency, voice or swallowing disorders.

There are many opportunities to work with culturally and linguistically diverse populations. Speech-language pathologists collaborate with other professionals on a daily basis. People who value relationships, independence and helping others achieve optimal performance are a great fit for this career.

Speech-language pathologists are in high demand and can find employment in a wide range of settings including schools, private practice, early intervention programs, medical centers, hospitals and clinics. Employment rates are extremely high, especially in school settings.

Career settings include:

- all levels of schools, including elementary, middle and high school
- early intervention settings, including home health
inpatient and acute care hospitals
• neonatal intensive care units
• outpatient rehabilitation
• pediatric outpatient centers

Professional Licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure webpage.
