Global Health, MS

LASSHMS

Are you concerned about global health issues? Passionate about changing the world? Go beyond fighting disease and health disparities by digging deeper into their sociocultural and evolutionary roots. Pick up where medical practice leaves off, and create evidence-based, contextually-informed, and far-reaching solutions to localized and universal health concerns.

Program Description

Degree Awarded: MS Global Health
The MS program in global health in the School of Human Evolution and Social Change exposes students to a comprehensive understanding of the factors that lead to morbidity around the world, including ecological, political, cultural, institutional, historical, evolutionary, social and technological factors. This program seeks to equip students with the necessary skills to create effective, sustainable and culturally appropriate approaches to prevent, assess and mitigate disease, as well as to assess critically the work of others in their professional environments.

The program helps learners to cultivate professional practice through focus on application of technical knowledge into professional settings by integrating recognized global health competencies.

Electives or Research (12 credit hours)

Other Requirement (3 credit hours)
ASB 584 Internship (3)

Culminating Experience (0 credit hours)
portfolio (0)

Additional Curriculum Information
For restricted electives, students complete at least nine credit hours from the list above.

Admission Requirements

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's degree from a regionally accredited institution.
Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

1. graduate admission application and application fee
2. official transcripts
3. written statement
4. three letters of recommendation
5. professional resume
6. proof of English proficiency

**Additional Application Information**

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Students who have graduated from programs in anthropology, biology, public health, applied mathematics, statistics, or in a related social science degree may be particularly well-positioned for this program. Applicants with previous degrees in other fields should address in the written statement how their previous studies have prepared them for this program.

**Attend Online**

**ASU Online**

ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information [here](#).

**Career Opportunities**

Nationally and internationally, the health field provides varied career opportunities, and demand is growing for graduates with specific skills. The program supports the goals of those pursuing careers in academic research, programming, teaching and policy. Sample employment venues include:

- data analyst
- learning specialist
- program manager
- research associate
- technical advisor
