Project Management, MPM

Are you excited about developing or furthering your knowledge of project management in preparation for an array of career paths? This master's degree program gives you the flexibility to grow knowledge and skills in a field that is in high demand.

Program description

**Degree awarded: MPM Project Management**

In the MPM program, students learn to plan and execute complex projects by applying advanced project management skills like project risk management, project quality management, project schedule management, project cost management, project resource management, project procurement management, project scope management, project stakeholder management, project integration management and project leadership. Students learn multiple approaches to project management including Waterfall, Agile and Scrum methodologies.

- **College/School:** [College of Integrative Sciences and Arts](#)
- **Location:** Polytechnic, Tempe or Online

Accelerated program options

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

- English, BA
- History, BA
- Interdisciplinary Studies, BA
Interdisciplinary Studies (Organizational Studies), BA

Liberal Studies, BA

Organizational Leadership, BA

Organizational Leadership (Project Management), BA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master’s during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply.

Admission requirements
Applicants must fulfill the requirements of both the Graduate College and the College of Integrative Sciences and Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any area or any related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

1. graduate admission application and application fee
2. official transcripts
3. letter of intent
4. professional resume
5. two letters of recommendation
6. proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency, regardless of their current residency. For proof of English proficiency, the applicant is expected to have either a score of 100 on the TOEFL iBT® taken in a testing center or a passing score in the English for Graduate Admission online course through ASU Global Launch.

All applicants must submit a written letter of intent that includes a detailed statement of purpose addressing how the program goals coincide with the student's personal and professional objectives. The essay is evaluated on the basis of content, presentation and evidence of graduate-level writing ability (the limit is 500 words).

The professional resume or curriculum vitae are limited to two pages in length.

Applicants must submit two letters of reference that focus on the ability of the applicant to do academic work.

Tuition information
When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid options to find out which will work best for them.

Attend online
ASU Online
ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page for program descriptions and to request more information.

**Career opportunities**

Graduates can employ advanced project management approaches, processes, structures and techniques, effectively contributing to development and deployment of project management methodologies that achieve organizational goals, solve problems and effect change around the globe. They are prepared for a range of positions in the public and private sectors, including in government, information technology, nonprofit agencies, businesses of many kinds and the service industry.

Graduates are prepared for jobs as technical project managers, project managers versed in the Agile methodology and others, senior project managers, portfolio or project managers, and directors of project management. In addition, students may seek advanced study in the form of the Project Management Professional® credential.

Career examples include:

- compliance manager
- construction manager
- cost estimator
- information technology project manager
- project manager

**Professional licensure**

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure webpage.

By completing this degree students will have the educational knowledge and content hours to sit for the Project Management Institute's Project Management Professional® exam.
