Integrated Health Care, MIHC

ASU is not currently accepting applications for this program. Interested students should apply to the Science of Health Care Delivery MS program.

Program Description

Degree Awarded: MIHC Integrated Health Care
Graduates of the MIHC degree program are prepared to develop, implement, evaluate and sustain integrated care delivery in diverse health care settings.

Through the Master of Integrated Health Care program, students gain management-level knowledge in health care operations, financial management, quality improvement, big data analytics, evidence-based practice, interprofessional leadership, teamwork and strategic planning. Students apply their knowledge and advance their competencies through a final project. With the final project, they have the opportunity to assist an existing or emerging practice, to develop or improve programs that include interprofessional team-based health care, integrated care programs, or programs that integrate medical and behavioral health care.

---

**Admission Requirements**

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a minimum of a bachelor's degree in social or behavioral sciences, health, business, public health, management or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

1. graduate admission application and application fee
2. personal statement
3. official transcripts
4. curriculum vitae
5. letters of recommendation
6. proof of English proficiency

**Additional Application Information**

An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

---

**Tuition Information**
When it comes to paying for college, everyone’s situation is different. Students can learn about ASU tuition and financial aid options to find out which will work best for them.

**Attend Online**

ASU Online

ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program’s ASU Online page for program descriptions and to request more information.

**Career Opportunities**

Graduates have the competencies to serve as managers in primary care clinics, hospitals, mental health and substance abuse treatment programs, health plans, disease management and employer-based wellness programs, and other innovative settings that integrate medical treatment with behavioral health care, also known as integrated care settings.
