Clinical Research Management (Graduate Certificate)

Are you interested in helping bring new medical products to market? Whether you are new to clinical research or want to improve your knowledge, this accredited online program provides that opportunity.

Program Description

Degree Awarded: Certificate Clinical Research Management (certificate)
The clinical research management certificate is for research professionals seeking to advance their career in the clinical research business. The program is designed to help them build a solid foundation in clinical trial management.

Students of this program learn the ethical and responsible conduct of clinical research as well as clinical research regulations, ethics, operations and data management. This includes management of day-to-day operations, recruitment, retention, staffing, data management and more in clinical trials.

Degree Requirements

15 credit hours

Required Core (12 credit hours)
HCR 561 Responsible Conduct of Clinical Research (3)
Admission Requirements

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a nationally recognized, regionally accredited academic institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

1. graduate admission application and application fee
2. official transcripts
3. resume or curriculum vitae
4. two online references
5. personal statement
6. response to application questions
7. proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Applicants must have six months of full-time, related clinical research work or internship experience as described on the applicant's resume or curriculum vitae. Applicants may be required to submit a job description or internship transcript from their employer.

The online references should be professional references from colleagues, supervisors, professors or other professional contacts who can attest to the applicant's academic and leadership experiences.

Knowledge of anatomy, physiology and medical terminology is recommended.
Applications are due 30 days before the start of the session.

**Tuition Information**

When it comes to paying for college, everyone’s situation is different. Students can learn about ASU tuition and financial aid options to find out which will work best for them.

**Attend Online**

ASU Online

ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program’s ASU Online page for program descriptions and to request more information.
