Emergency Management and Homeland Security (Community Resilience), MA

Natural hazards, infectious diseases and acts of terrorism are among the challenges and crises cities around the world face. With the knowledge, skills and training you gain through this highly ranked graduate degree, you will possess expertise in preparing for future challenges and effectively guiding threat response if and when crises occur.

Program Description

Degree Awarded: MA Emergency Management and Homeland Security (Community Resilience)

Community resilience refers to the efforts of government and nongovernment actors to develop policies and practices aimed at reducing short and long-term hazards risk in order to enhance safety, sustainability and overall community resilience capacity.

This concentration within the MA program in emergency management and homeland security is focused on understanding how community resilience is developed and promoted across government agencies (local, state and federal) as well as private and nonprofit sector organizations in which functional and operational responsibilities relate to planning, hazards mitigation, disaster recovery or sustainability. Further, it leverages international partners in Australia and the United Kingdom through the PLuS Alliance for additional course offerings.

Program students serve and promote stronger and more resilient communities across public, private or nonprofit sector organizations. The program emphasizes a blended approach of practical knowledge and broader integrative thinking about the complex societal challenges of today's world. Its core values of collaboration between practitioners, faculty and students, public service, commitment to diversity, critical thinking and evidence-based assessment are all central to promoting informed and effective leadership.
At a Glance

- **College/School:** Watts College of Public Service & Community Solutions
- **Location:** Downtown Phoenix or Online

Accelerated Program Options

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

- Emergency Management and Homeland Security, BS
- Public Service and Public Policy (Emergency Management and Homeland Security), BS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's degree during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply.

33 credit hours including the required applied project course (PAF 593)

**Required Core (18 credit hours)**
- CRJ 511 Applied Data Analysis in Criminal Justice (3)
- CRJ 554 Homeland Security (3)
- PAF 551 Hazards Governance (3)
- PAF 552 Integrated Emergency Management (3)
- PAF 559 GIS for Hazards Analysis (3)

**Concentration (6 credit hours)**
- PAF 553 Hazard Mitigation Planning (3)
- PAF 560 Community Resilience (3)

**Elective or Research (6 credit hours)**

**Culminating Experience (3 credit hours)**
- PAF 593 Applied Project (3)

**Additional Curriculum Information**
Students choose one of the applied project courses listed.
Admission Requirements

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in criminology or criminal justice, public administration or public service, sociology or social work, public safety or fire service management, parks and recreation management, applied sciences or another closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

1. graduate admission application and application fee
2. official transcripts
3. two letters of recommendation
4. a written statement
5. evidence of current employment in an organization in this field or at least two years prior professional experience in this or a related field OR a bachelor's degree in a related area
6. proof of English proficiency

Additional Admission Information

An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The written statement should be at least one page in length and describe the applicant's educational and career goals and long-term professional development strategy.

Tuition Information

When it comes to paying for college, everyone's situation is different. Students can learn about ASU tuition and financial aid options to find out which will work best for them.

Attend Online

ASU Online

ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page for program descriptions and to request more information.

Application Deadlines
Global Opportunities

PLuS Alliance
The PLuS Alliance partnership combines the strengths of three leading research universities from three continents --- Arizona State University, King's College London and UNSW Sydney --- to create and share knowledge that will solve pressing educational and societal challenges.

Students have the opportunity to collaborate with peers and specialists across the globe through PLuS-partner courses offered online. Through this PLuS Alliance collaboration degree program, students develop transferable global competencies and gain exposure to international teaching and academic content. Career Opportunities

The U.S. Bureau of Labor Statistics predicts faster than average job growth in the homeland security and emergency management fields over the next 10 years. Graduates with a master's degree in emergency management and homeland security with a concentration in community resilience are well suited for a variety of career opportunities, including:

- disaster recovery specialist
- emergency management
- environmental quality
- hazard mitigation specialist
- planning
- public health emergency preparedness
