

Assessment of Integrative Health Modalities (Graduate Certificate)

PPSWGGRCH

How do you set yourself apart in the workplace? Become the best health care practitioner by enrolling in this program, which will complement your knowledge in treating the whole person. Upon completion, you'll have a foundation from which to demonstrate your mastery of skills and build your expertise.

Program description

Degree awarded: Certificate Assessment of Integrative Health Modalities (certificate)

The graduate certificate program in assessment of integrative health modalities provides students with extensive knowledge of integrative health practices and with an experiential and didactic experience in which cutting-edge research is explored, advanced skills are developed and a mindfulness practice is nurtured.

To satisfy the culminating project requirement, students may more deeply explore a topic of interest by completing an individual research paper or by performing a community activity that demonstrates mastery and application of the advanced skills acquired while enrolled in the certificate program.

Degree requirements

15 credit hours

Required Core (9 credit hours)

SWG 655 Quality of Life, Mastering Mindfulness (3)

SWG 656 Treating the Whole Person (3)

SWG 657 Holistic Therapies for Modern Times (3)

Transdisciplinary Electives (6 credit hours)**Additional Curriculum Information**

After the completion of the three approved courses and prior to completing the last course of the program, students are required to complete a signature project highlighting their certificate experience.

Admission requirements

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in health or human services or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

1. graduate admission application and application fee
2. official transcripts
3. proof of English proficiency

In addition, applicants are required to submit to the School of Social Work:

1. a resume
2. a one- to two-page statement
3. the School of Social Work application to the assessment of integrative health modalities certificate program

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

International students who need an F-1 or J-1 visa must apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

This certificate is open to professionals in social work, nursing or related health and human service professions from the community as well as to students currently admitted to a health and human services degree program at the master's or doctoral level.

No more than two certificate courses may be completed before applying for admission to the certificate program.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about [ASU tuition and financial aid](#) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Integrate mindfulness into personal and professional lives
- Apply knowledge of human behavior in the social environment when working with individuals, families and groups

Career opportunities

Professionals with expertise in health, behavioral health and medical settings are in high demand across many disciplines and organizations, including:

- education
- medicine
- nonprofit and for-profit agencies
- social services
