

Environmental Humanities, Certificate

LAENHCERT

Explore the relationships between humans, nature and the environment, and be better prepared to engage in activities that lead to meaningful social and environmental change.

Description

The environmental humanities certificate is for students who are interested in humanities-based approaches to the current global environmental crisis, a vital area of study.

Courses are focused on the human relationship to the environment and the relationship between nature and culture. To gain practical experience, students also complete an internship in environmental activism, policy development, education or another pertinent area.

Other courses may be used by approval of an academic advisor in the Department of English.

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

Requests to declare this certificate are reviewed by the academic advisor in the academic unit offering the certificate. Students may be contacted to discuss the certificate before the addition of the certificate to the student record.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Produce analytic writing about environmental issues that meets or exceeds standards in the field.
- Engage critically, with writing and group oral discussion assignments, with up-to-date scholarly or creative Environmental Humanities texts.
- Present team-prepared oral presentations on the cultural elements of an environmental challenge they are studying in order to prepare to learn team work and how to present pressing issues accessibly to the public.

Career opportunities

The certificate provides students with a multidisciplinary knowledge base and practical skill set that enable them to enact social and environmental change. Students who complete this certificate are well prepared for careers in sustainability, environmental science and public policy, and they are better equipped to implement environmentally responsible practices in their own lives.
