

# Community Health, Minor

NUCHLTMIN

## Description

The minor in community health is designed for those who want to create healthy, sustainable communities.

Community health focuses on the actions and conditions needed for the health and well-being of individuals, families and communities. Students acquire skills for working with teams in diverse settings to formulate research-based strategies that assist individuals in making healthy and sustainable lifestyle choices.

## Program requirements

[2024 - 2025 Minor Map](#)

[Minor Map \(Archives\)](#)

A "C" (2.00 on a 4.00 scale) or better is required in all courses.

### Required Courses -- 6 credit hours

[HCR 220: Introduction to Health Professions and the U.S. Health Care System \(CIVI OR H\)](#) (3)

[HCR 231: Fundamentals of Community Health](#) (3)

### Electives (select three) -- 9 credit hours

[HCR 303: Assessing Needs, Assets and Capacity for Health Education](#) (3)

[HCR 331: Communication within Communities](#) (3)

[HCR 335: Program Development and Management for Community Health](#) (3)

[HCR 336: Environmental Community Health](#) (3)

[HCR 435: Leaders in Community Health](#) (3)

Prerequisite courses may be needed in order to complete the requirements of this minor.

## Enrollment requirements

**GPA Requirement:** 2.00

**Incompatible Majors:** BS in community health

**Other Enrollment Requirements:** None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and the minor.

## Career opportunities

The courses in a minor complement and enhance the skill sets and knowledge that students acquire while pursuing a major program.

Although most career areas require more training than a minor can provide, students pursuing the community health minor learn about health care and, specifically, the impact that communities have on health care. Graduates often pursue employment in an organization focused on health care.
