

Health Innovation, Minor

NUHCIMIN

Description

The health innovation minor provides students with the foundational concepts necessary for them to contribute to transformational change in current health situations. This program gives students an understanding of entrepreneurial thinking and of initiating, implementing and sustaining innovation in health settings.

Program requirements

[2024 - 2025 Minor Map](#)

[Minor Map \(Archives\)](#)

A "C" (2.00 on a 4.00 scale) or better is required in all courses.

Required Course -- 3 credit hours

[HCI 311: Health Innovation: Foundational Concepts](#) (3)

Electives (select four) -- 12 credit hours

[HCI 150: Introduction to Health Innovation](#) (3)

[HCI 250: Health Entrepreneurship and Value Creation](#) (3)

[HCI 313: Philosophy of Science in Health Care: Understanding Paradigms of Health and Healing](#) (3)

[HCI 344: Management and Leadership in Health Organizations](#) (3)

[HCI 412: Transforming Health Care: A Systems Perspective for Innovation](#) (3)

[HCI 421: Health Care Policy: The Innovator's View \(CIVI\)](#) (3)

[HCI 425: Facilitating Innovation to Achieve Outcomes](#) (3)

[HCI 428: Technology: A Tool to Advance Innovation in Health Care](#) (3)

[HCI 494: Special Topics](#) (3)

Notes: Any 3 credit hour topic will count towards the minor.

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: BS in health innovation

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and the minor.

Career opportunities

Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

Although most career areas require more training than a minor can provide, students completing the health innovation minor often pursue employment in an organization focused on health care, and they use their skills to help effect change within the organization.
